Forward-Looking Statements

This presentation contains forward-looking statements that involve risks, uncertainties and assumptions that could cause our results to differ materially from those expressed or implied by such forward-looking statements. All statements, other than statements of historical fact, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, any statements regarding: our plans, strategies and objectives for future operations; any projections of financial items including projections as to guidance and other outlook information; future operations expenditures; our ability to enter into, renew and/or perform commercial contracts; the spot market; our current work continuing; visibility and future utilization; our protocols and plans; future economic or political conditions; energy transition or energy security; our spending and cost management efforts and our ability to manage changes; oil price volatility and its effects and results; our ability to identify, effect and integrate mergers, acquisitions, joint ventures or other transactions; developments; any financing transactions or arrangements or our ability to enter into such transactions or arrangements; our sustainability initiatives; our share repurchase program or execution; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Forward-looking statements are subject to a number of known and unknown risks, uncertainties and other factors that could cause results to differ materially from those in the forward-looking statements, including but not limited to market conditions and the demand for our services; volatility of oil and natural gas prices; complexities of global political and economic developments; results from mergers, acquisitions, joint ventures or similar transactions; results from acquired properties; our ability to secure and realize backlog; the performance of contracts by customers, suppliers and other counterparties; actions by governmental and regulatory authorities; operating hazards and delays, which include delays in delivery, chartering or customer acceptance of assets or terms of their acceptance; the effectiveness of our sustainability initiatives and disclosures; human capital management issues; geologic risks; and other risks described from time to time in our filings with the Securities and Exchange Commission ("SEC"), including our most recently filed Annual Report on Form 10-K, which are available free of charge on the SEC's website at www.sec.gov. We assume no obligation and do not intend to update these forward-looking statements, which speak only as of their respective dates, except as required by law.

Helix – Overview

Helix is an international offshore energy services company that provides specialty services to the offshore energy industry, with a focus on **well intervention**, **robotics** and **decommissioning** operations.

Our services are key in supporting a global energy transition.

Maximizing Existing Reserves

- Reservoir Management
- Production Enhancement
- Tree Change Out
- Wireline, Slickline & Coiled Tubing
- Scale Squeeze & Stimulation
- DHSV Lockout
- Inspection, Repair, Maintenance

30%¹

Decommissioning

- Cement Remediation
- Pipeline Abandonment
- Reclamation & Remediation
- Wellhead Removal
- Seabed Infrastructure Removal
- Through Tubing Abandonment & Removal
- Upper Plug & Abandonment

56%¹

Offshore Renewables

- Cable Trenching and Burial
- UXO Survey & Clearance
- Boulder Removal
- Mattress Installation & Removal
- Cable Repair
- Air Diving
- Route Preparation

Helix differentiates itself through a pure-play offshore business model anchored by seven world-class, built-for-purpose well intervention vessels

¹ Revenue by segment before intercompany eliminations

² Shallow Water Abandonment includes the results of Helix Alliance acquired July 1, 2022

Well Intervention

- Leader in rig-less intervention; lower costs, higher efficiency and reduced carbon footprint compared to rigs
- Fleet of seven purpose-built well intervention vessels and 12 well intervention systems operating globally
- Vessels and systems perform both **decommissioning** and **production maximization** operations
- Geographically diverse scope of operations and concentration of blue-chip customers

Q4000 (Gulf of America)
Dynamically positioned class 3 (“DP3”) purpose-built semisubmersible well intervention vessel

Q7000 (West Africa / Asia Pacific / Brazil)
DP3 purpose-built semisubmersible well intervention vessel

Q5000 (Gulf of America)
DP3 purpose-built semisubmersible well intervention vessel

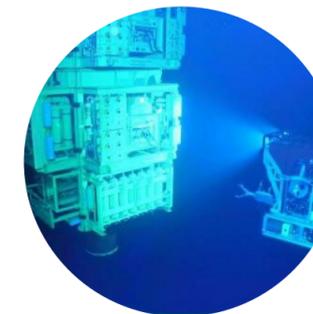

Seawell (North Sea)
Dynamically positioned class 2 (“DP2”) light well intervention and saturation diving vessel

Well Enhancer (North Sea)
DP3 light well intervention and saturation diving vessel

Sea Helix 1 & Siem Helix 2 (Brazil)
DP3 well intervention vessels

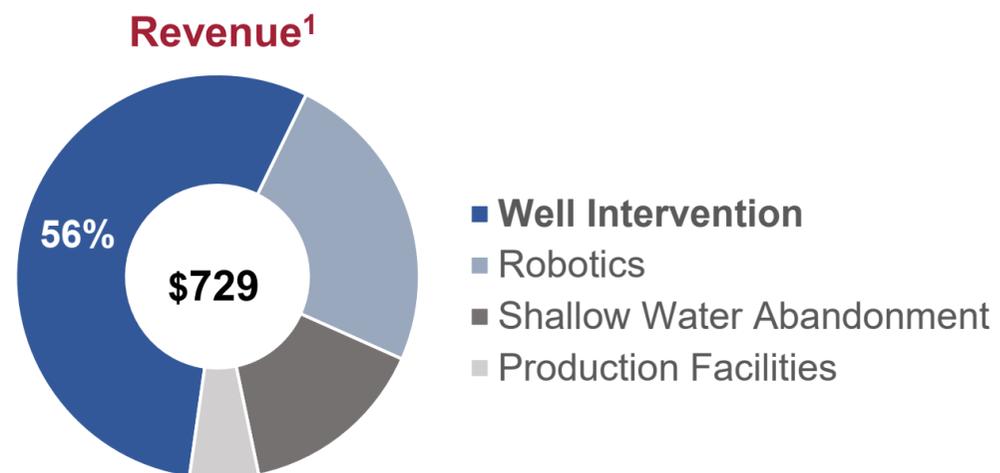

Intervention Riser Systems
Utilized for wireline intervention, production logging, coiled-tubing operations, well stimulation and full P&A operations

Subsea Intervention Lubricators
Enable efficient and cost-effective riserless intervention and abandonment solutions for subsea wells up to 1,500m water depth

Business Mix (year ended December 31, 2025)

¹ Revenue and percentages before eliminations and other

Robotics

- We serve both the **Renewable Energy** and **Oil and Gas** markets
- Global leader in trenching windfarm subsea cables
- A fleet of advanced subsea trenchers, work-class ROVs and chartered support vessels
- Globally diversified operations and broad customer base

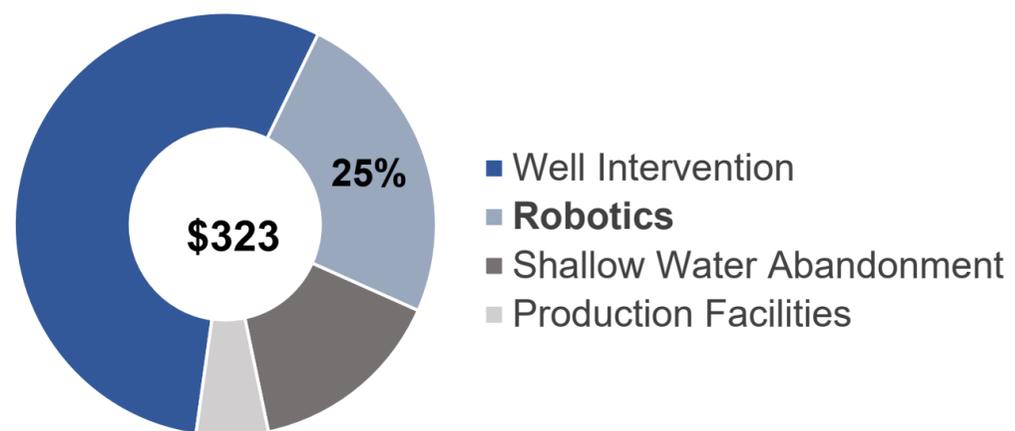

Subsea Trenchers (6 units)
Four jet trenchers, one cutting trencher and one plough trencher

ROV Fleet (39 units)
Highly maneuverable underwater work-class remotely operated vehicles

Business Mix (year ended December 31, 2025)

Revenue¹

IROV Boulder Grabs (3 units)
Remotely operated robotic grabs

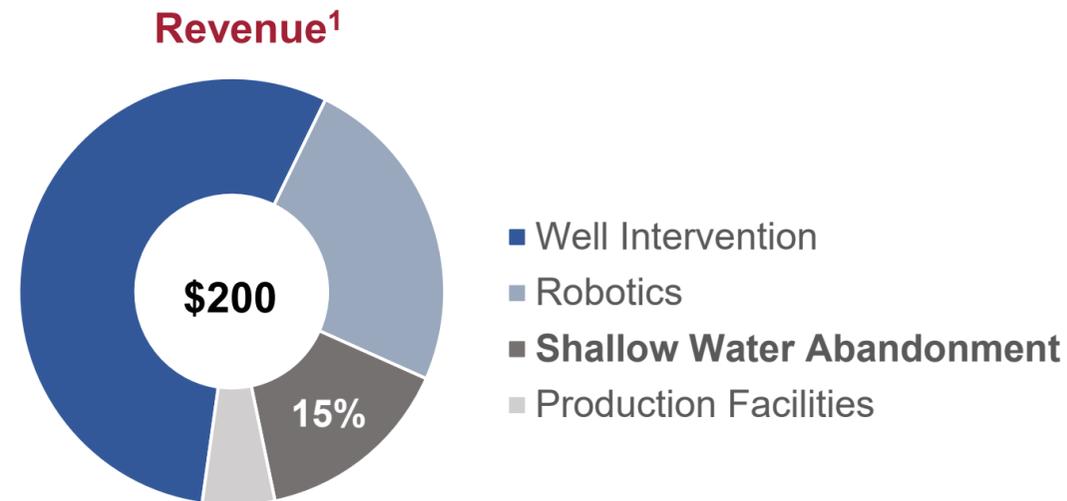

ROV Support Vessels (Global)
Chartered fleet of DP2 and DP3 subsea support vessels

¹ Revenue and percentages before eliminations and other

Shallow Water Abandonment

- Provider of **decommissioning** services in the Gulf of America shelf
- P&A and coiled tubing systems, heavy lift barge and fleet of liftboats, OSVs and diving vessels
- Only company capable of providing all facets of decommissioning services in the Gulf of America shelf
 - Well P&A
 - Sub-sea architecture removal
 - Facility decommissioning and structure removal

Business Mix (year ended December 31, 2025)

¹ Revenue and percentages before eliminations and other

Commercial Diving:
Three dive support vessels

Well Services:
20 P&A spreads, six coiled tubing units and one snubbing unit

Marine Services:
Six OSVs ranging from 150' to 170' and one crewboat

Heavy Lift:
Epic Hedron
1,763-ton derrick barge

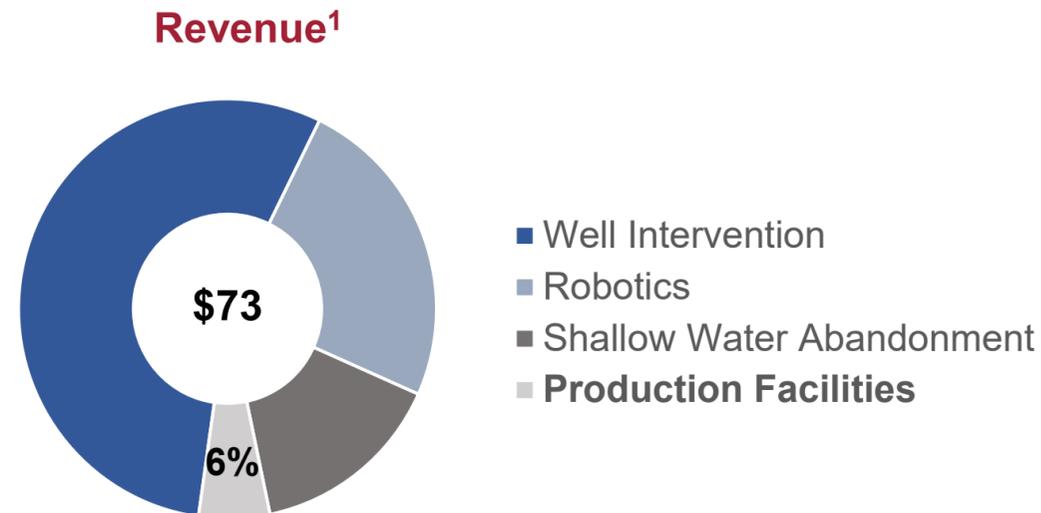

Marine Services:
Nine liftboats ranging in size up to 265'

Helix Production Facilities

- *Helix Producer 1* floating production unit (FPU)
- Helix Fast Response System (HFRS); one of only two providers in the Gulf of America
- Our ownership of the Droshky and Thunder Hawk fields in the Gulf of America

Business Mix (year ended December 31, 2025)

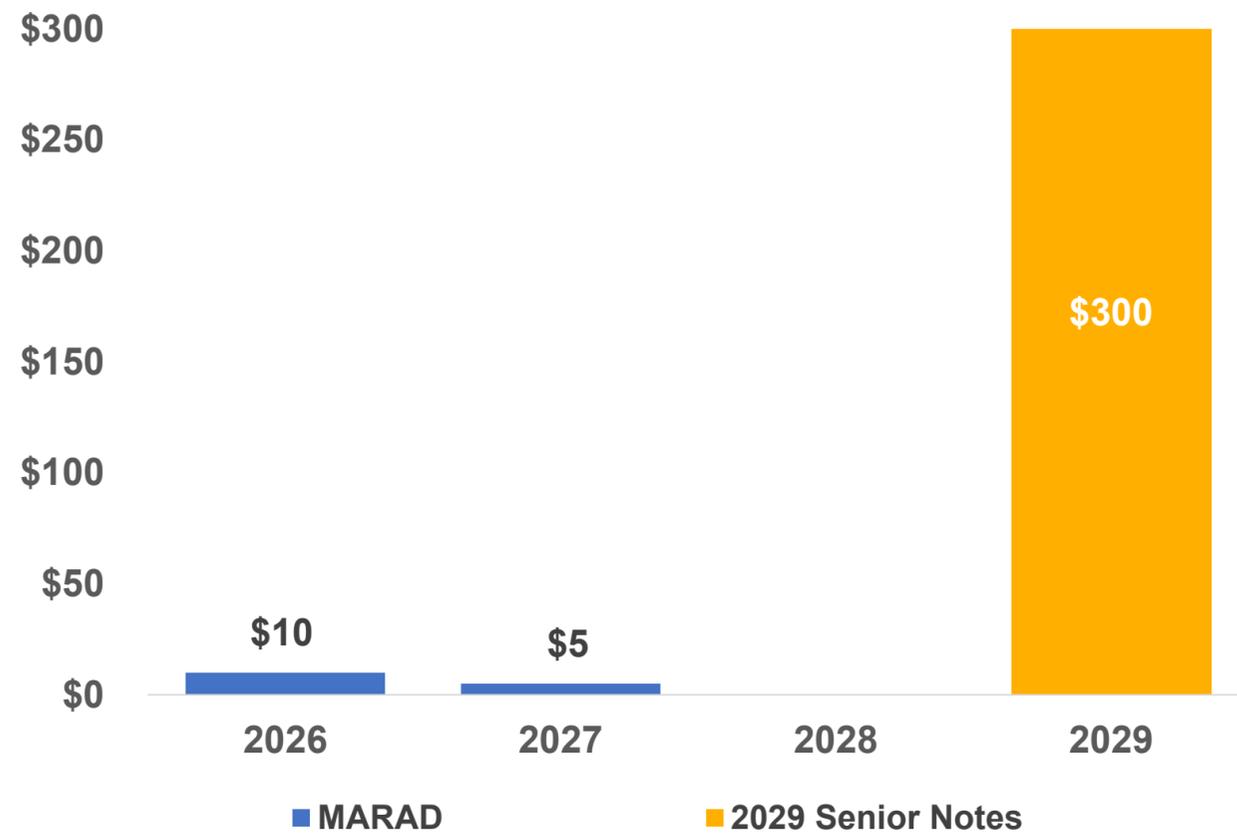

¹ Revenue and percentages before eliminations and other

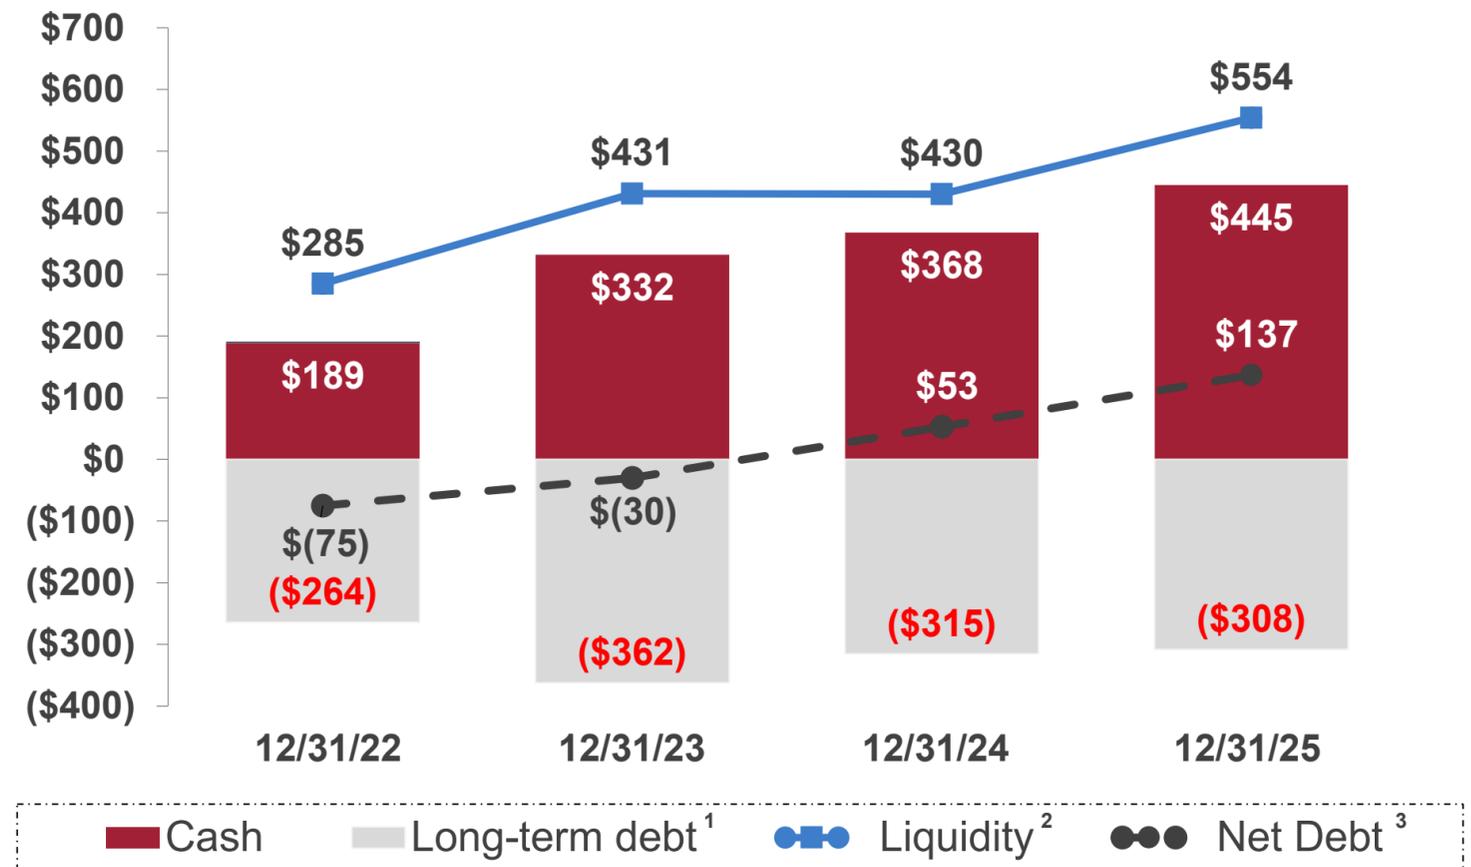

Debt Instrument Profile

Minimal maturities until 2029; Net cash position and strong liquidity at 12/31/25

Principal Payment Schedule at 12/31/25
(\$ in millions)

Debt and Liquidity Profile at 12/31/25
(\$ in millions)

Total funded debt† of \$315 million at 12/31/25

- \$300 million Senior Notes due 2029 – 9.75%
- \$15 million MARAD Debt – 4.93%
 - Semi-annual amortization payments through maturity in Q1 2027

† Funded debt represents the principal amount of our long-term debt before subtracting \$7 million of remaining unamortized debt discount and issuance costs

¹ Long-term debt net of debt issuance costs

² Liquidity is calculated as the sum of cash and cash equivalents and available capacity under Helix’s ABL facility but excludes cash pledged to the ABL facility

³ Net Debt is a non-GAAP financial measure; see non-GAAP reconciliations below

Amounts may not add due to rounding

Key Financial Metrics – Capital Allocation

¹ Net Debt and Free Cash Flow (FCF) are non-GAAP financial measures; see non-GAAP reconciliations below

2026 Forecast

Key Financial Metrics

(\$ in millions)

	2026 Outlook	2025 Actual
Revenues	\$ 1,200 - 1,400	\$ 1,291
Adjusted EBITDA ¹	230 - 290	272
Capital Additions ²	70 - 80	70
Free Cash Flow ¹	100 - 160	120
Revenue Split:		
Well Intervention	\$ 695 - 830	\$ 729
Robotics	305 - 335	323
Shallow Water Abandonment	160 - 190	200
Production Facilities	80 - 85	73
Eliminations	(40)	(34)
Total Revenue	\$ 1,200 - 1,400	\$ 1,291

Amounts may not add due to rounding

Key Forecast Drivers

Our 2026 outlook will be affected by, among other things, the utilization and rates in our spot and call-off operations and the extent of winter seasonal activity and the following expected key drivers:

Well Intervention

- Q4000 – second half 2026 utilization
- Q7000 – second half 2026 utilization
- Brazil – *Sea Helix 1* and *Siem Helix 2* operating efficiency
- North Sea – spot market utilization

Robotics

- Seasonal utilization in the North Sea and Asia Pacific on chartered vessels

Shallow Water Abandonment

- Strength of contracting for oil and gas properties in bankruptcies reverting to former owners
- Seasonal utilization on the Gulf of America shelf

Free Cash Flow

- Forecasted variability due to the seasonality of our operations and the timing of collections on our receivables

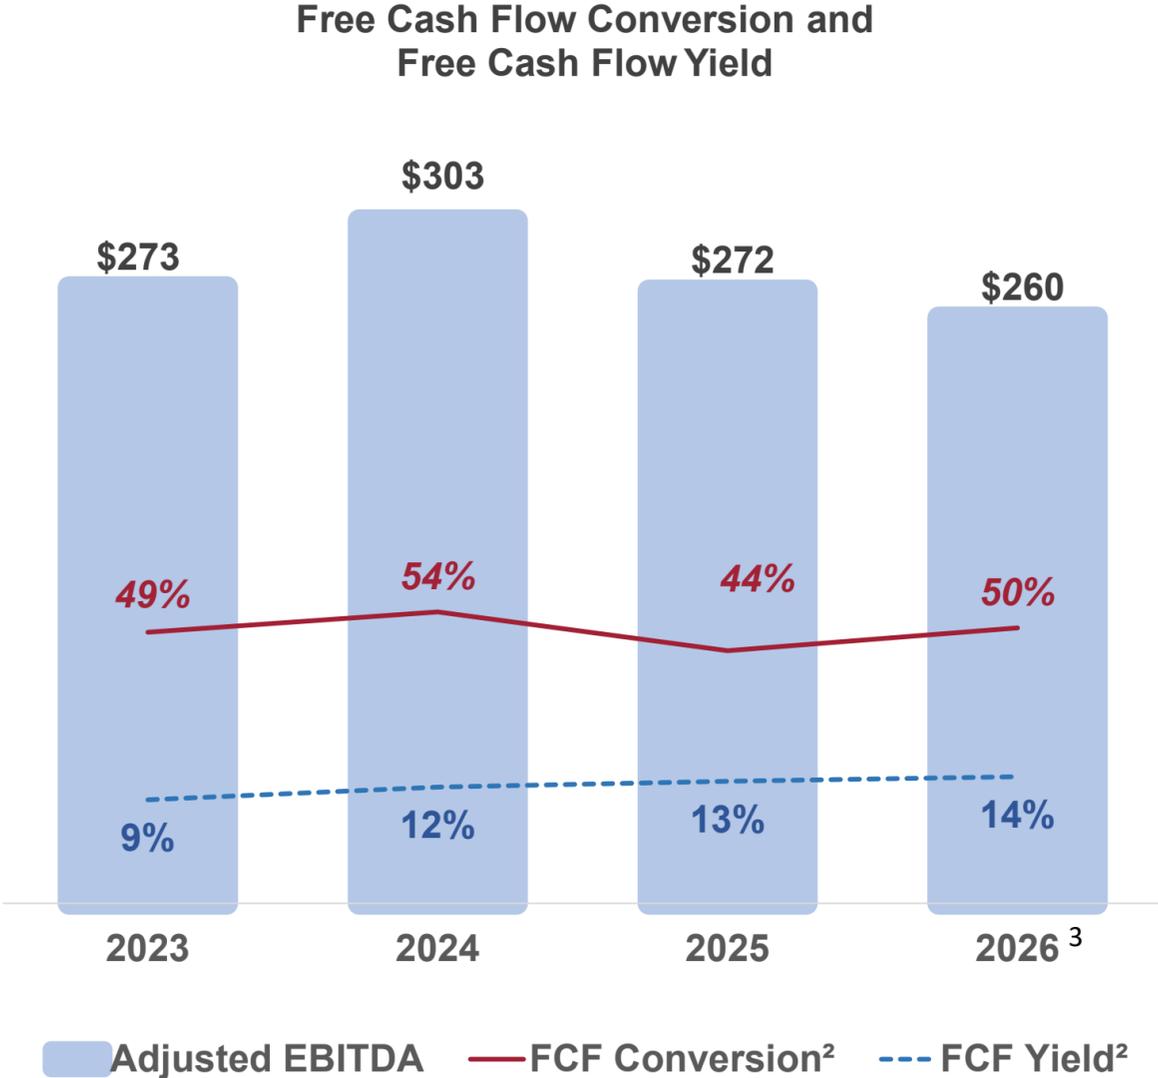

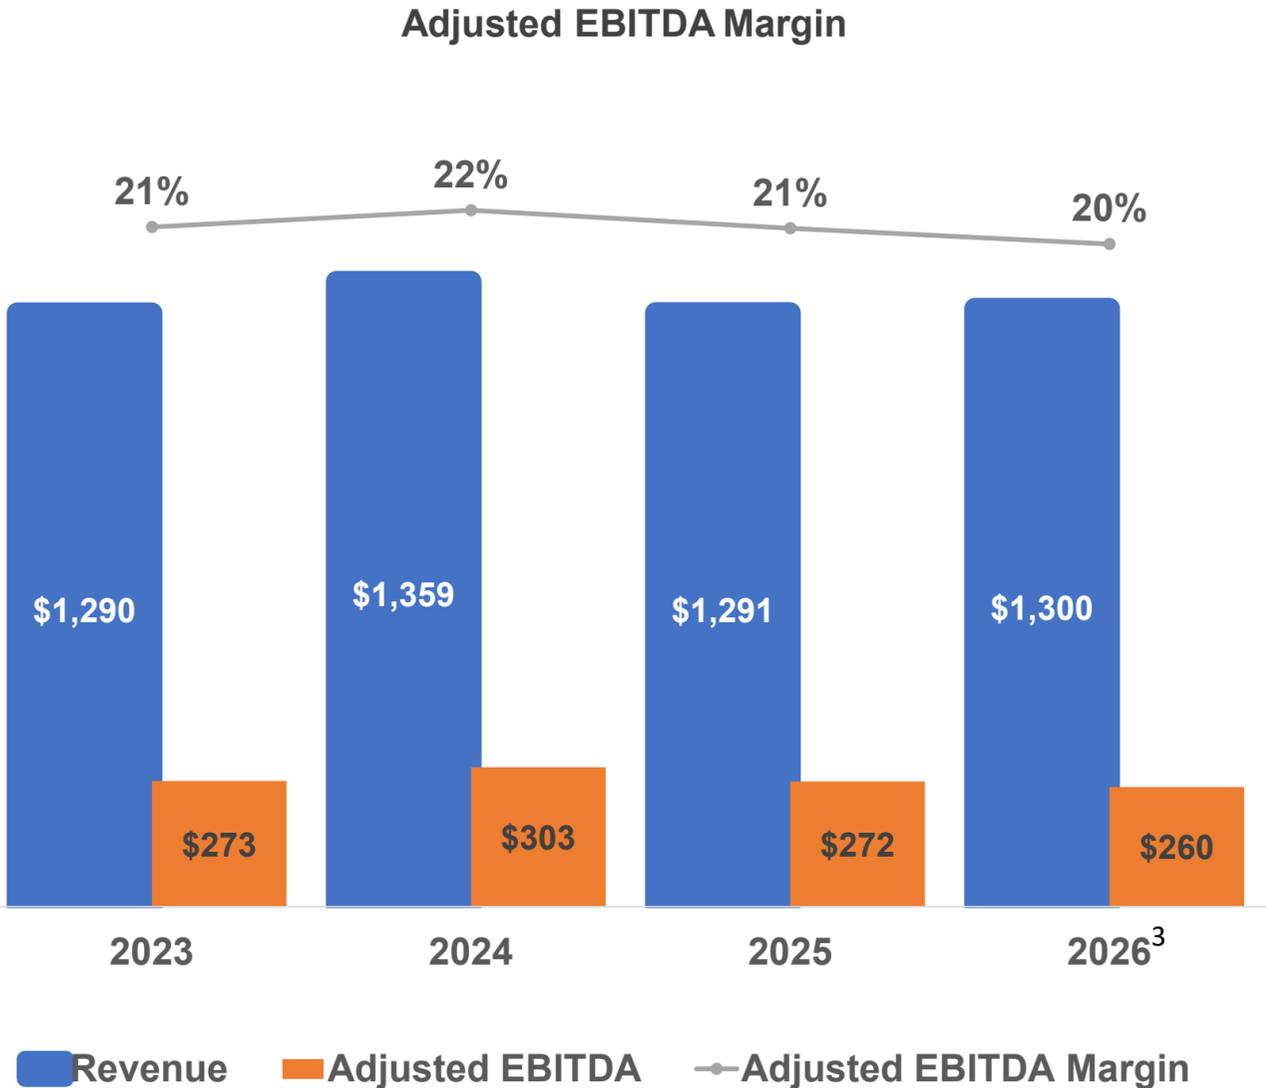

¹ Adjusted EBITDA and Free Cash Flow are non-GAAP financial measures; see non-GAAP reconciliations below

² Capital Additions include regulatory certification costs for our vessels and systems as well as other capital expenditures

EBITDA and Free Cash Flow Generation *(\$ in millions)*

Consistent Adjusted EBITDA¹ Margins and Free Cash Flow¹ Conversion
Strong Free Cash Flow Yield

¹ Adjusted EBITDA and Free Cash Flow (FCF) are non-GAAP financial measures; see non-GAAP reconciliations below

² FCF Conversion is the ratio of FCF to Adjusted EBITDA and FCF Yield is FCF Flow divided by Helix market cap at the end of each year; 2026 FCF Yield based on year-end 2025 market cap

³ Revenue, Adjusted EBITDA and FCF based on midpoints of current outlook

Why Choose Helix?

Market Leader in Purpose-Built Well Intervention and Subsea Trenching

- Fleet of seven purpose-built well intervention vessels with riser-based and riserless intervention capabilities, performing production enhancement and decommissioning operations in mature fields
- Diversified geographically serving both oil and gas and renewables customers
- Diverse customer base including large concentration of blue-chip customers
- Subsea Services Alliance with SLB offering integrated solutions

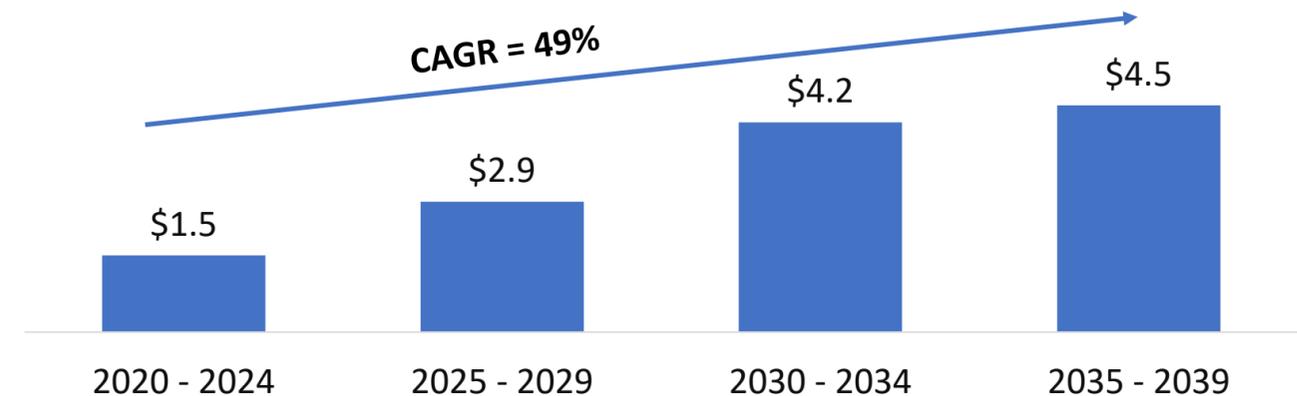

Strong Balance Sheet and Resilient Cash Flow Generation

- Strong balance sheet and low financial leverage
- Resilient FCF generation through the cycles and strong FCF yields
- Backlog of \$1.3 billion

Helix Well-Positioned for Growing Decommissioning Market

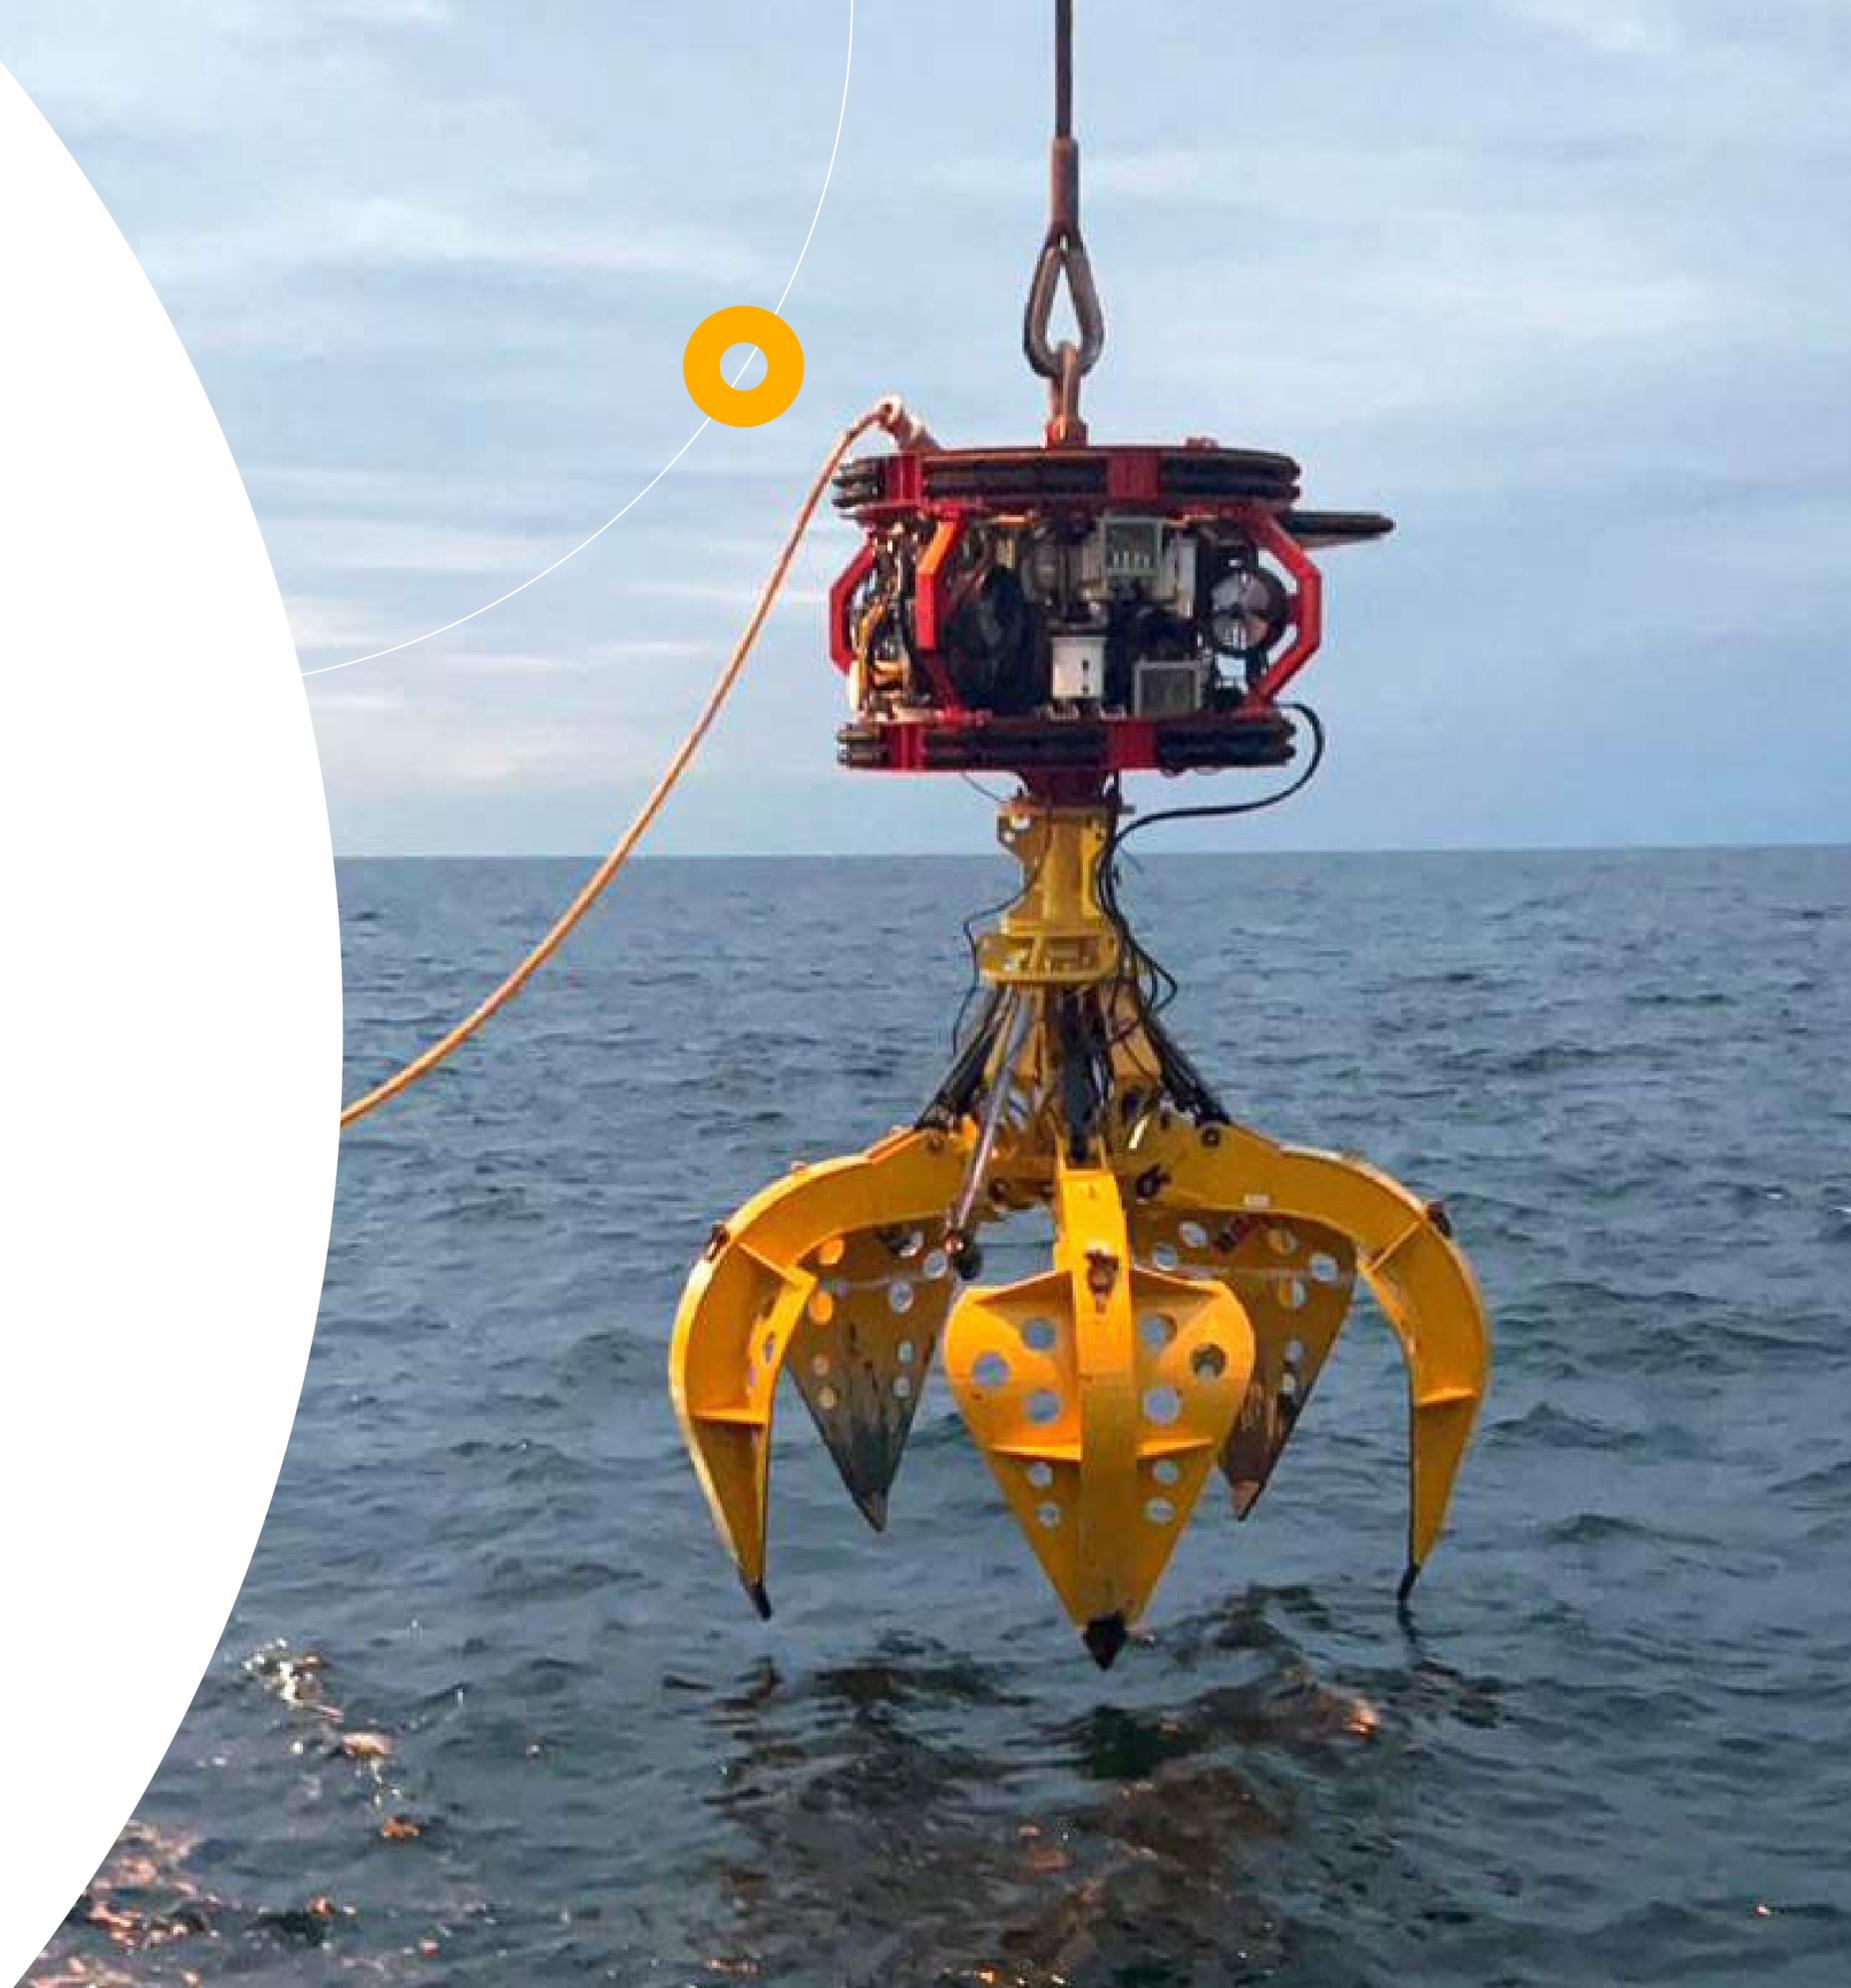

- Decommissioning spending in the Gulf of America expected to increase significantly
- Helix is a leader in rigless decommissioning and has existing assets and capabilities to capitalize on this growth

Gulf of America Deepwater Decommissioning Expenditures¹ (\$ billions)

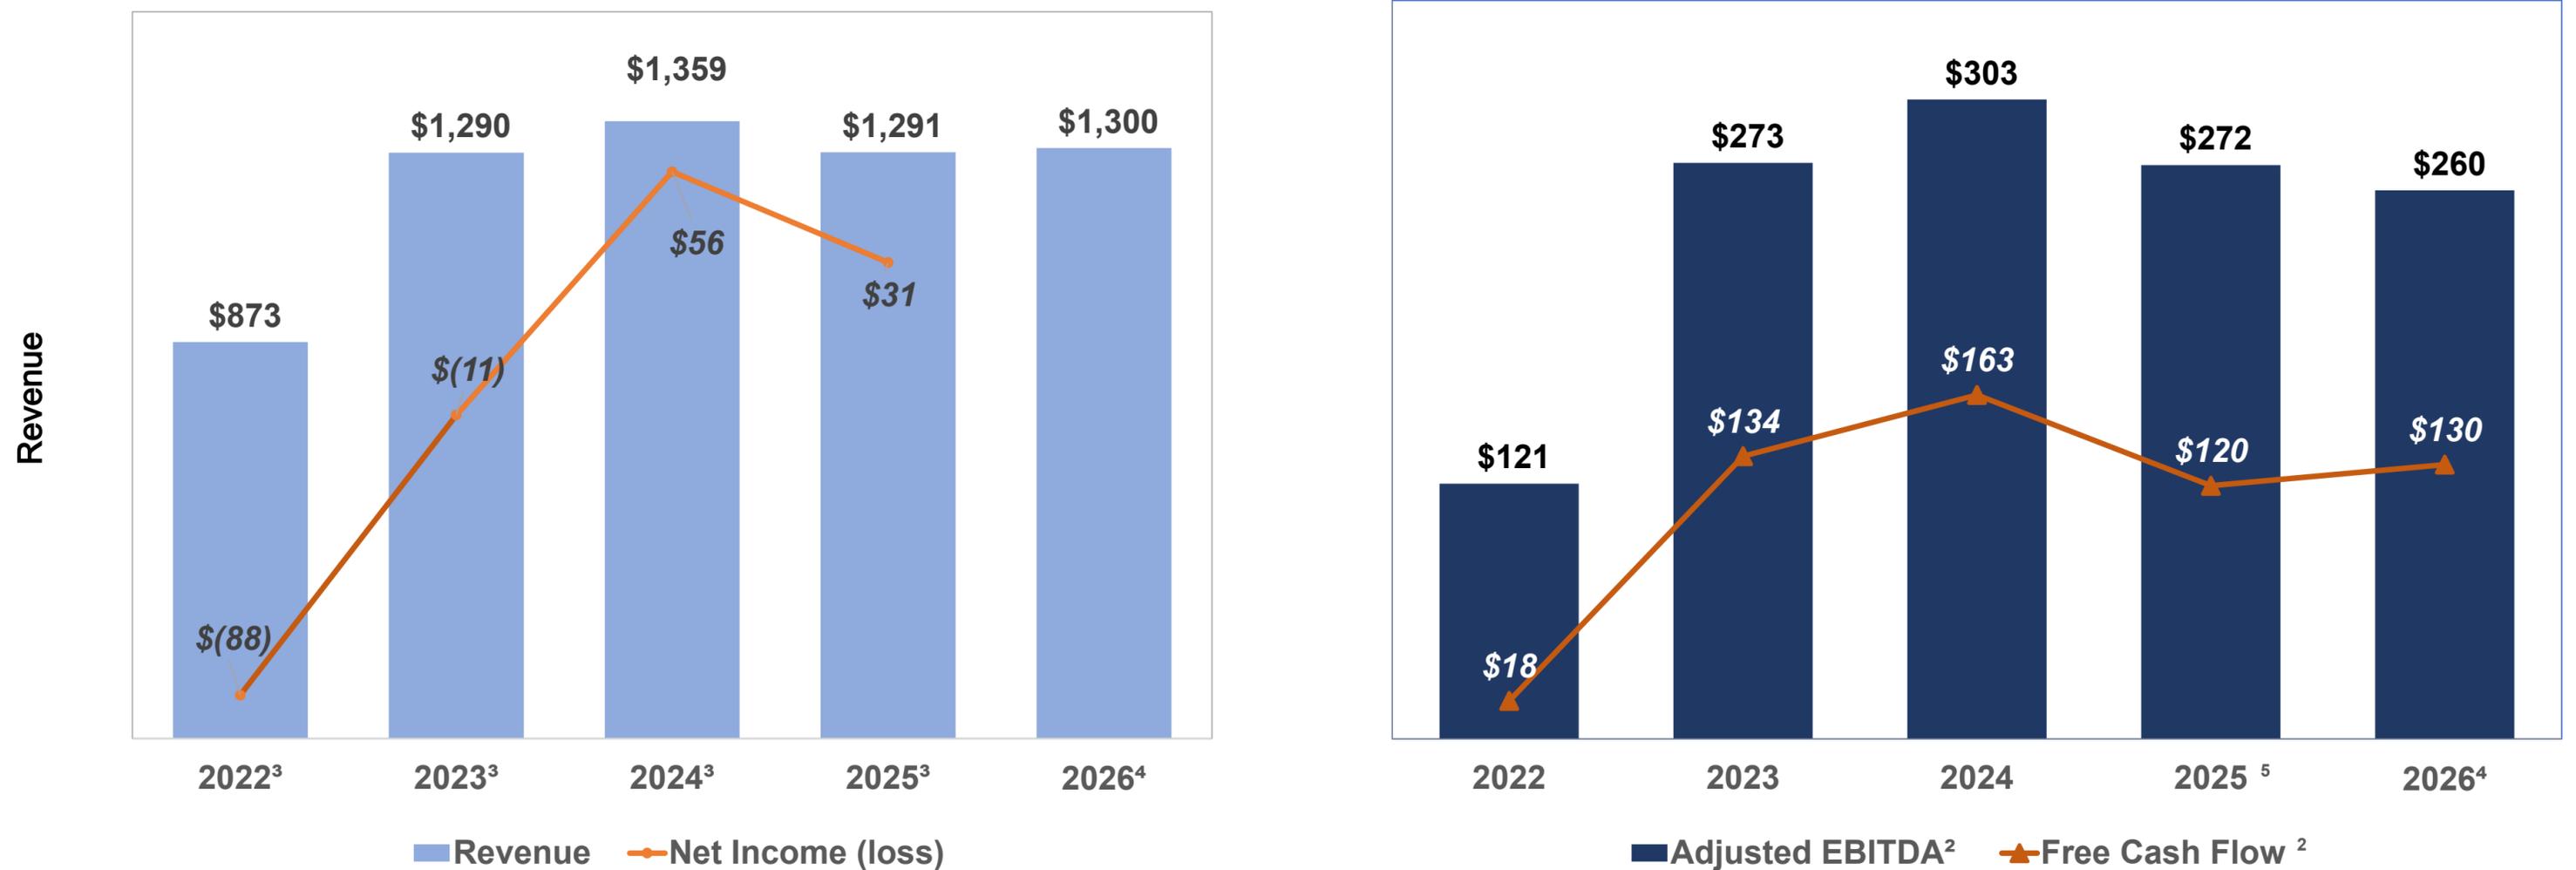

¹ Source: Rystad Deepwater and ultra-deepwater in the Gulf of America

Financial Trends

Revenue, Earnings and Cash Flow Trend¹

(\$ in millions)

¹ Helix Alliance revenue, earnings and cash flow have been included beginning July 1, 2022 (date of acquisition)

² Adjusted EBITDA and Free Cash Flow are non-GAAP financial measures; see non-GAAP reconciliations above

³ Net income in 2025 includes \$18 million non-cash impairment of oil and gas properties; net income in 2024 includes a loss of \$21 million related to the retirement of the 2026 Convertible Notes; net loss in 2023 includes losses of approximately \$37 million related to the repurchase of \$160 million principal amount of the 2026 Convertible Notes and \$42 million for the change in the value of the Alliance earnout; net loss in 2022 includes a loss of \$16 million for the change in the value of the Alliance earnout

⁴ 2026 amounts represent the mid-point of Helix's current forecast

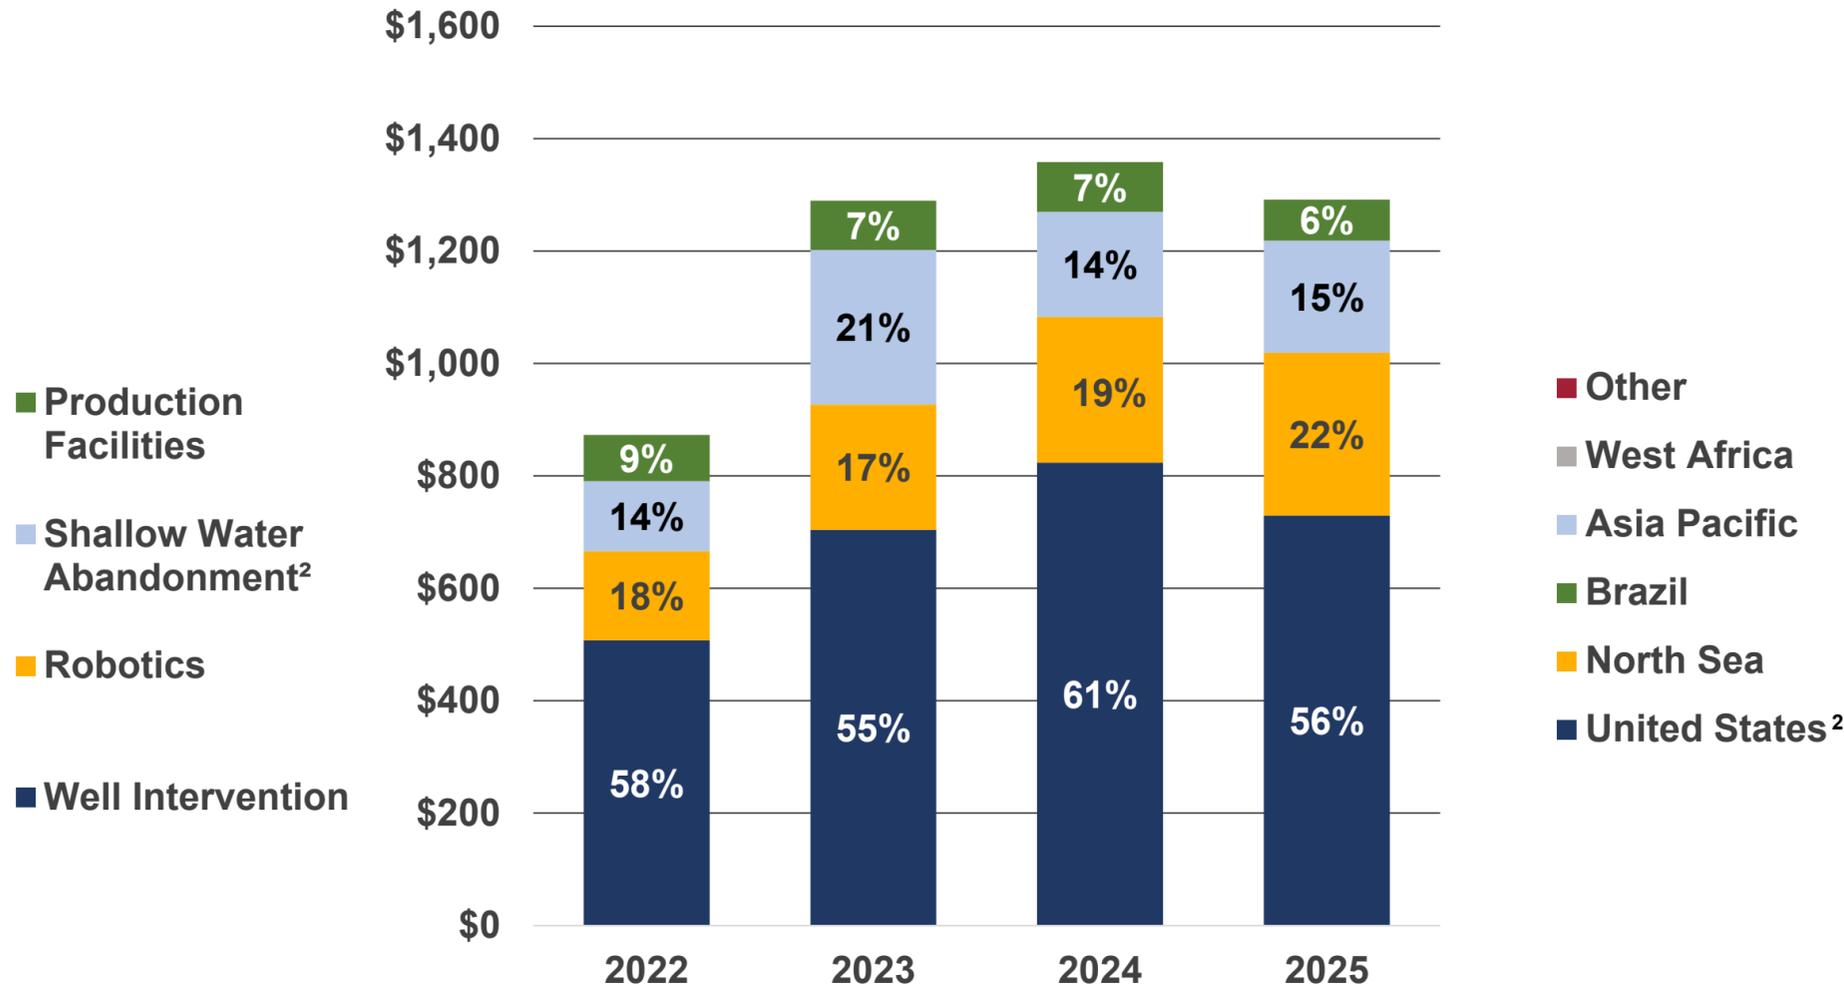

⁵ 2024 Free Cash Flow includes \$58 million of the earnout payment made April 3, 2024

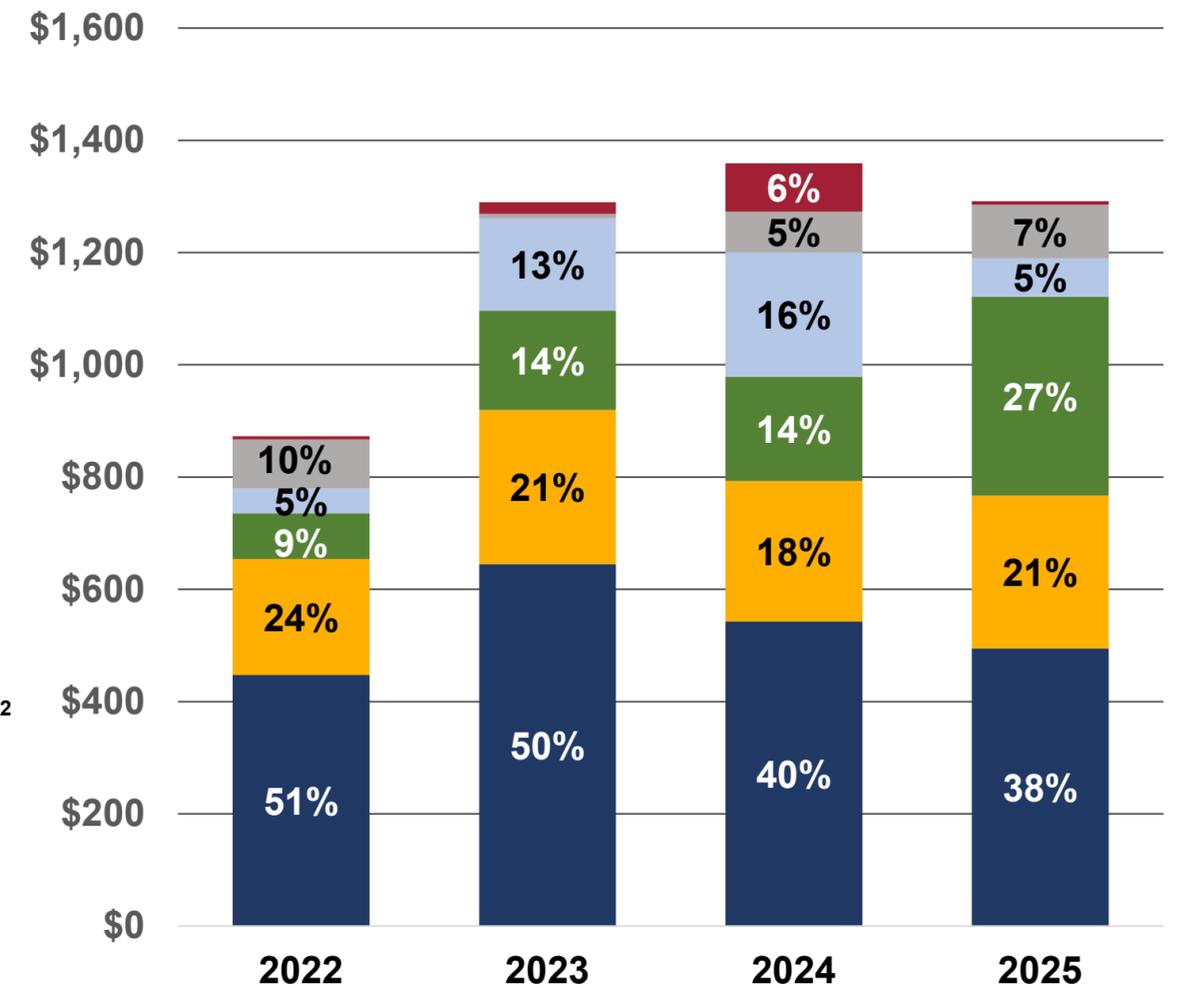

Company Financial Highlights

Revenue Dispersion (\$ in millions)

By Segment¹

By Geography¹

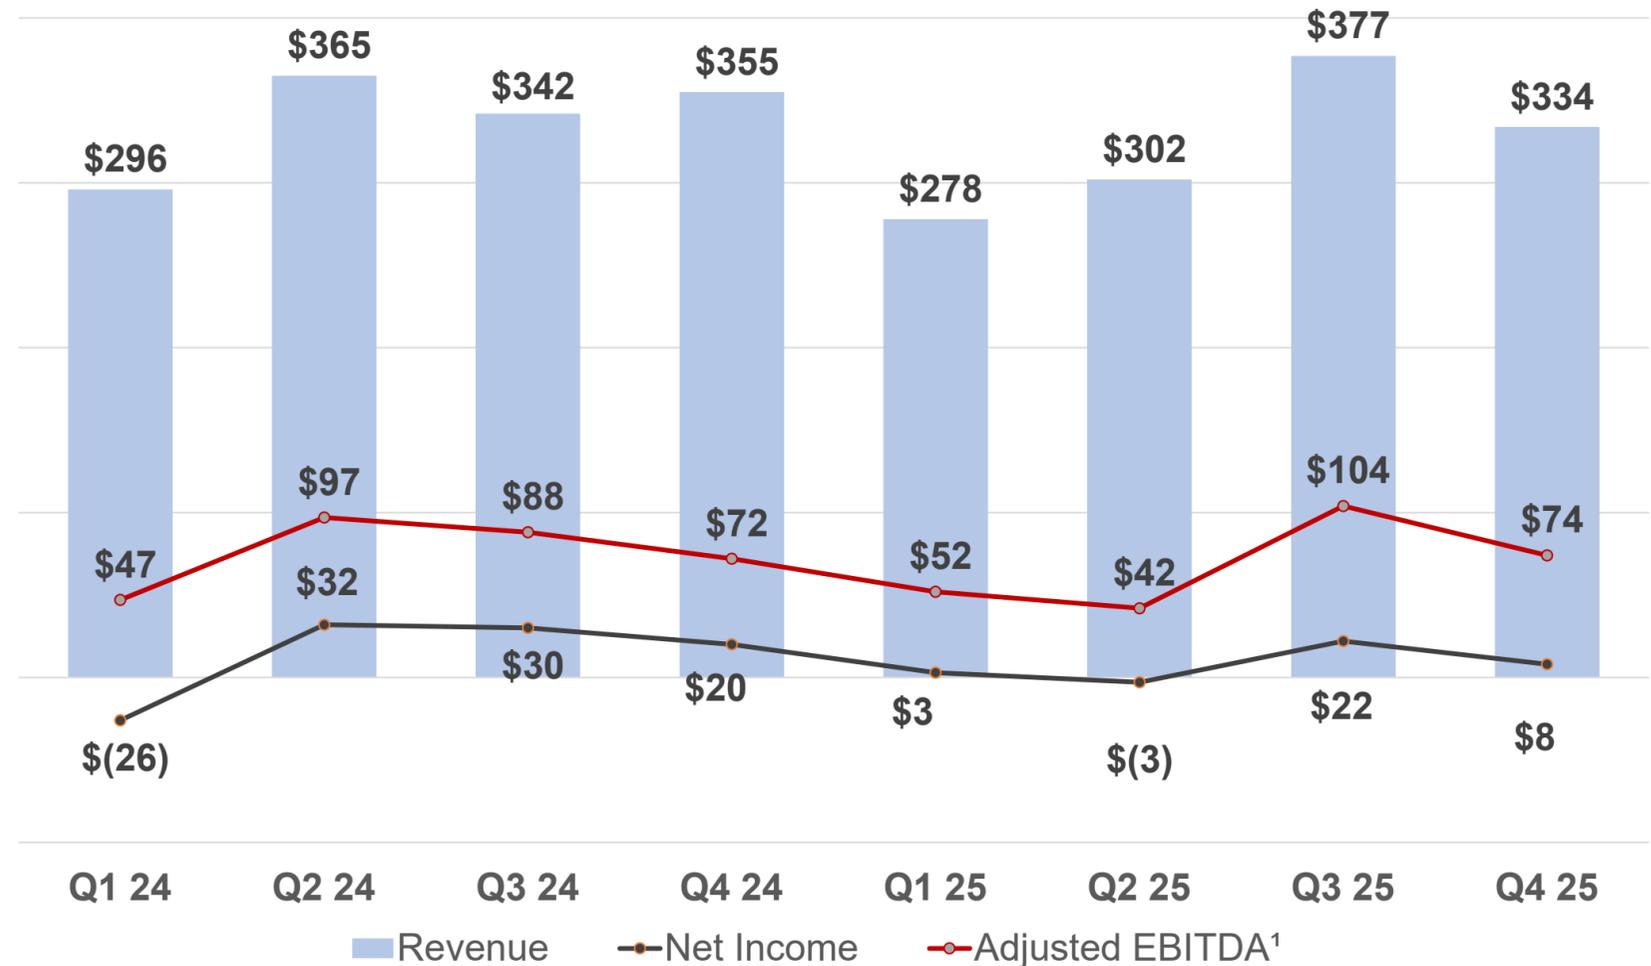

¹ Revenue and percentages net of intercompany eliminations

² Helix Alliance revenue has been included in Shallow Water Abandonment segment and U.S. region beginning July 1, 2022 (date of acquisition)

Historical Quarterly Revenue & Earnings *(\$ in millions)*

- Seasonal activities typically generate stronger performance during Q2 and Q3 and a decline in activity during Q1 and Q4:
- Seasonal peaks generally in Q3 and troughs in Q1
- Business units most impacted by seasonality include:
 - Well Intervention and Robotics in the North Sea
 - Shallow Water Abandonment
- Quarterly activity also influenced by the timing of regulatory dockings and long-term transits and mobilizations

¹ Adjusted EBITDA is a non-GAAP financial measure; see non-GAAP reconciliations below

Non-GAAP Reconciliations

Non-GAAP Financial Measures

We define EBITDA as earnings before income taxes, net interest expense, net other income or expense, and depreciation and amortization expense. To arrive at our measure of Adjusted EBITDA, we exclude gains or losses on disposition of assets, long-lived asset impairment losses, acquisition and integration costs, gains or losses related to convertible senior notes, the change in fair value of contingent consideration and the general provision for (release of) current expected credit losses, if any. We define Free Cash Flow as cash flows from operating activities less capital expenditures, net of proceeds from asset sales and insurance recoveries (related to property and equipment), if any. Net debt is calculated as long-term debt including current maturities of long-term debt less cash and cash equivalents and restricted cash.

We use EBITDA, Adjusted EBITDA, Free Cash Flow and Net Debt to monitor and facilitate internal evaluation of the performance of our business operations, to facilitate external comparison of our business results to those of others in our industry, to analyze and evaluate financial and strategic planning decisions regarding future investments and acquisitions, to plan and evaluate operating budgets, and in certain cases, to report our results to the holders of our debt as required by our debt covenants. We believe that our measures of EBITDA, Adjusted EBITDA, Free Cash Flow and Net Debt provide useful information to the public regarding our operating performance and ability to service debt and fund capital expenditures and may help our investors understand and compare our results to other companies that have different financing, capital and tax structures. Other companies may calculate their measures of EBITDA, Adjusted EBITDA, Free Cash Flow and Net Debt differently from the way we do, which may limit their usefulness as comparative measures. EBITDA, Adjusted EBITDA, Free Cash Flow and Net Debt should not be considered in isolation or as a substitute for, but instead are supplemental to, income from operations, net income, cash flows from operating activities, or other income or cash flow data prepared in accordance with GAAP. Users of this financial information should consider the types of events and transactions that are excluded from these measures. See reconciliation of the non-GAAP financial information presented in this press release to the most directly comparable financial information presented in accordance with GAAP. We have not provided reconciliations of forward-looking non-GAAP financial measures to comparable GAAP measures due to the challenges and impracticability with estimating some of the items without unreasonable effort, which amounts could be significant.

Well Intervention Utilization

Supplemental Schedule

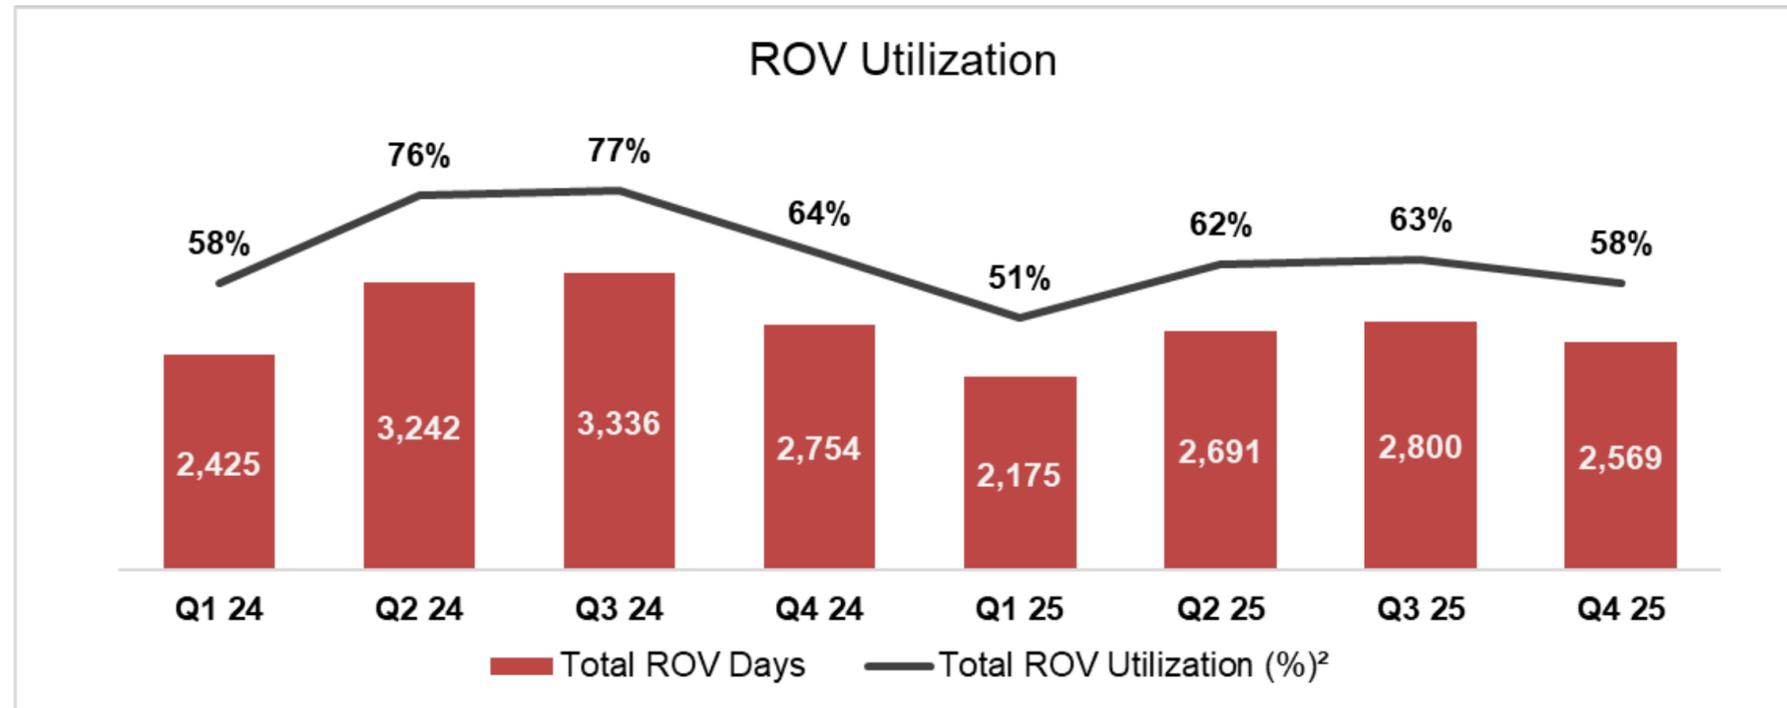

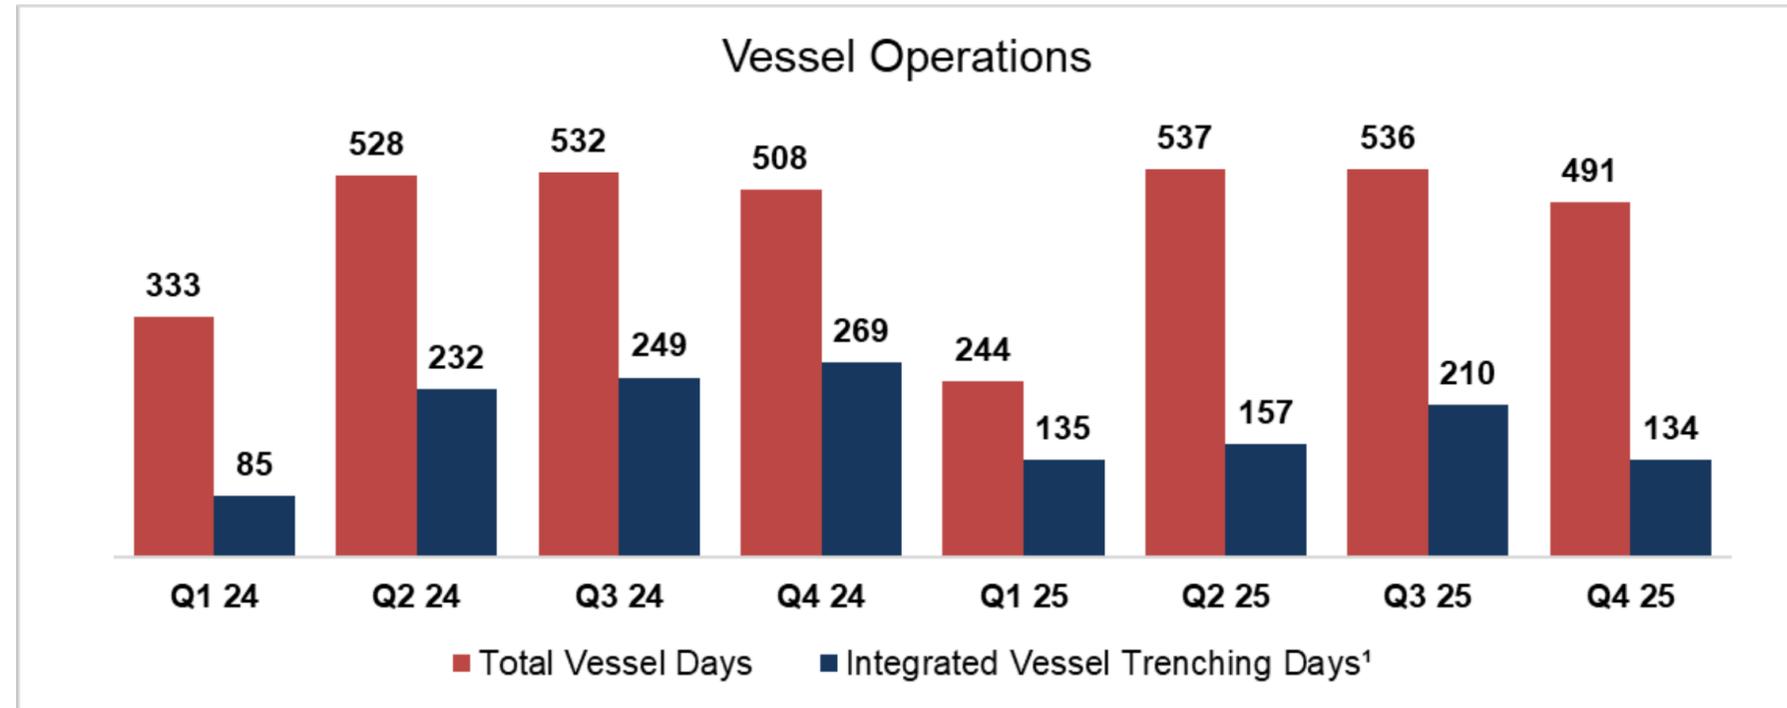

¹ Gulf of America utilization includes Q4000 utilization offshore Nigeria between Q4 2024 and Q2 2025 on a six-month contract

² North Sea utilization includes Seawell utilization in the western Mediterranean during Q1 and Q2 2024

³ Q7000 utilization includes utilization in Australia in 2024 and Brazil in 2025

Robotics Utilization

Supplemental Schedule

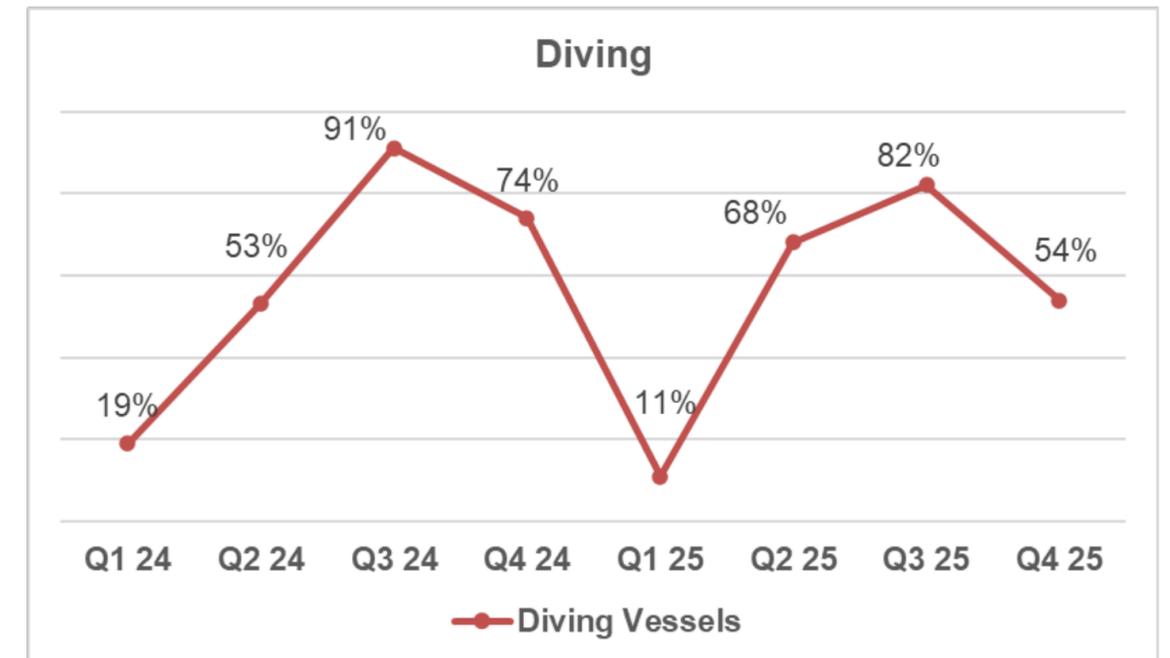

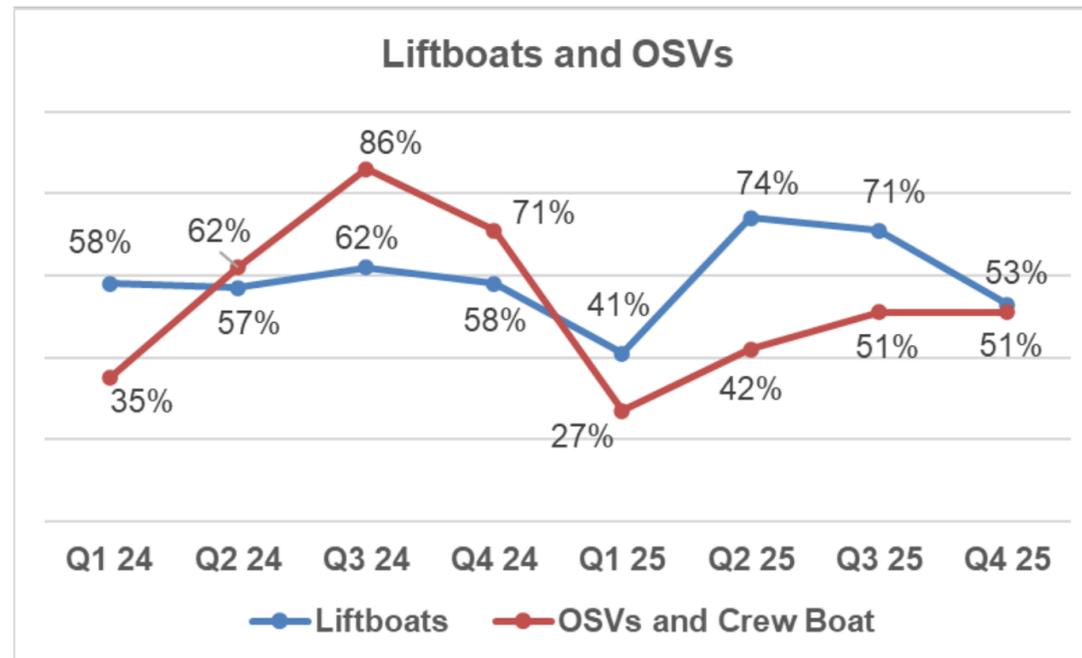

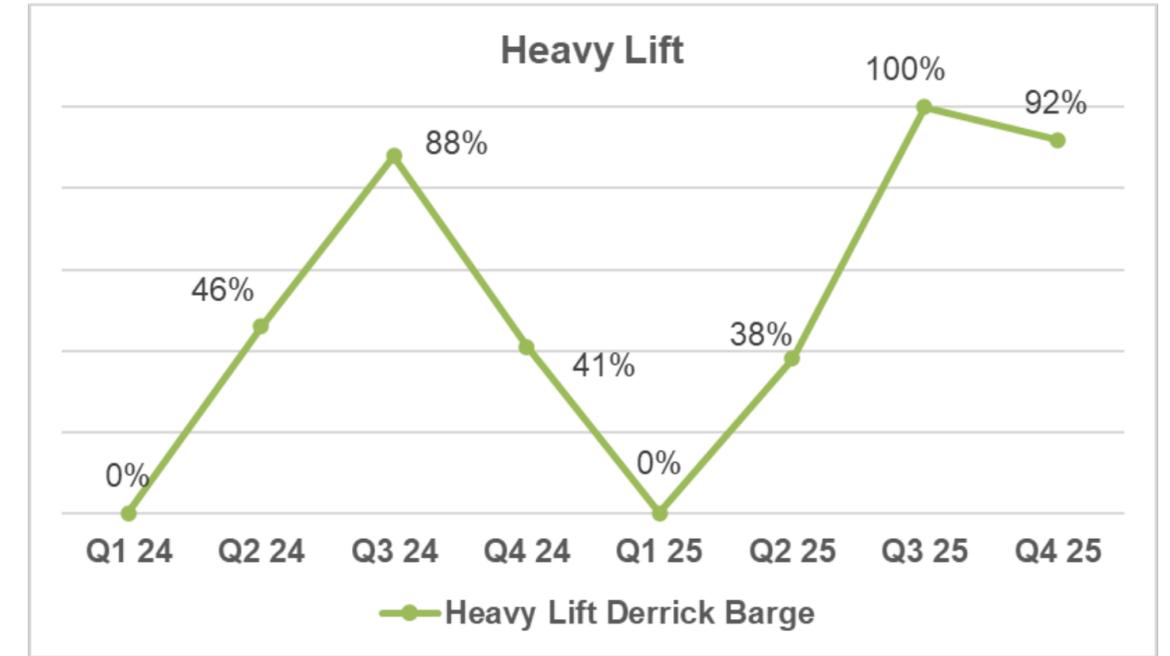

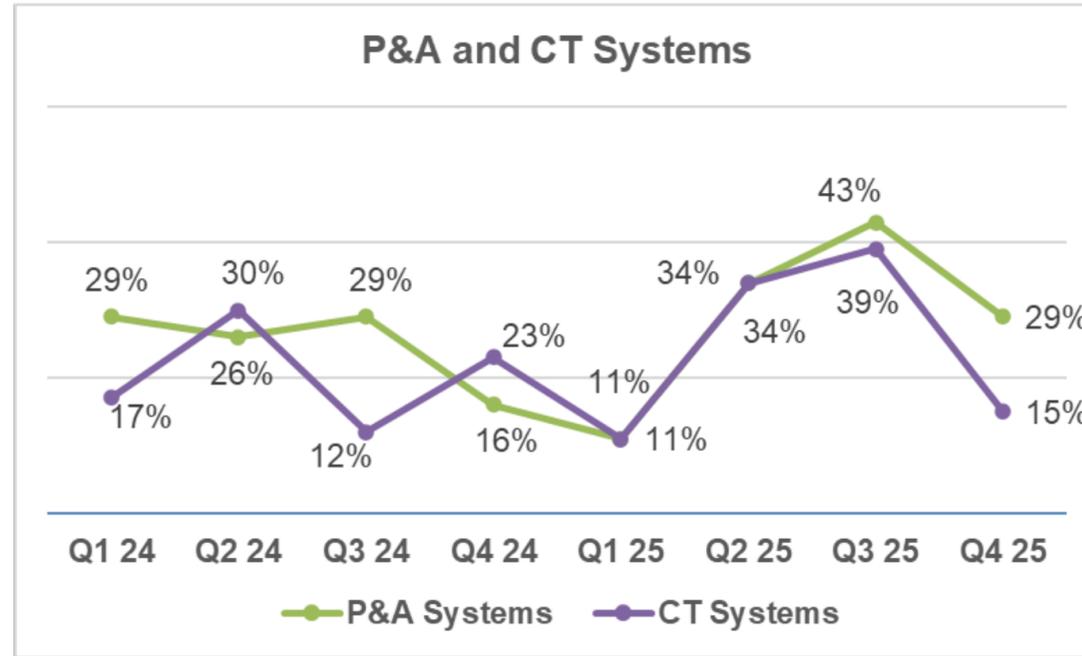

¹ Integrated vessel trenching days represents trenching activities utilizing Helix trenchers on Helix-chartered vessels and excludes stand-alone trenching operations on third-party vessels of 49 days, 92 days, 26 days, 90 days, 91 days, 165 days and 137 days during Q2 2024, Q3 2024, Q4 2024, Q1 2025, Q2 2025, Q3 2025 and Q4 2025, respectively

² Total ROV utilization includes 39 work class ROVs, six trenchers and three IROV boulder grabs, two of which were placed into service in Q1 2024 and Q2 2025

Shallow Water Abandonment Utilization

Supplemental Schedule

Macro Outlook - Supports Upside Potential

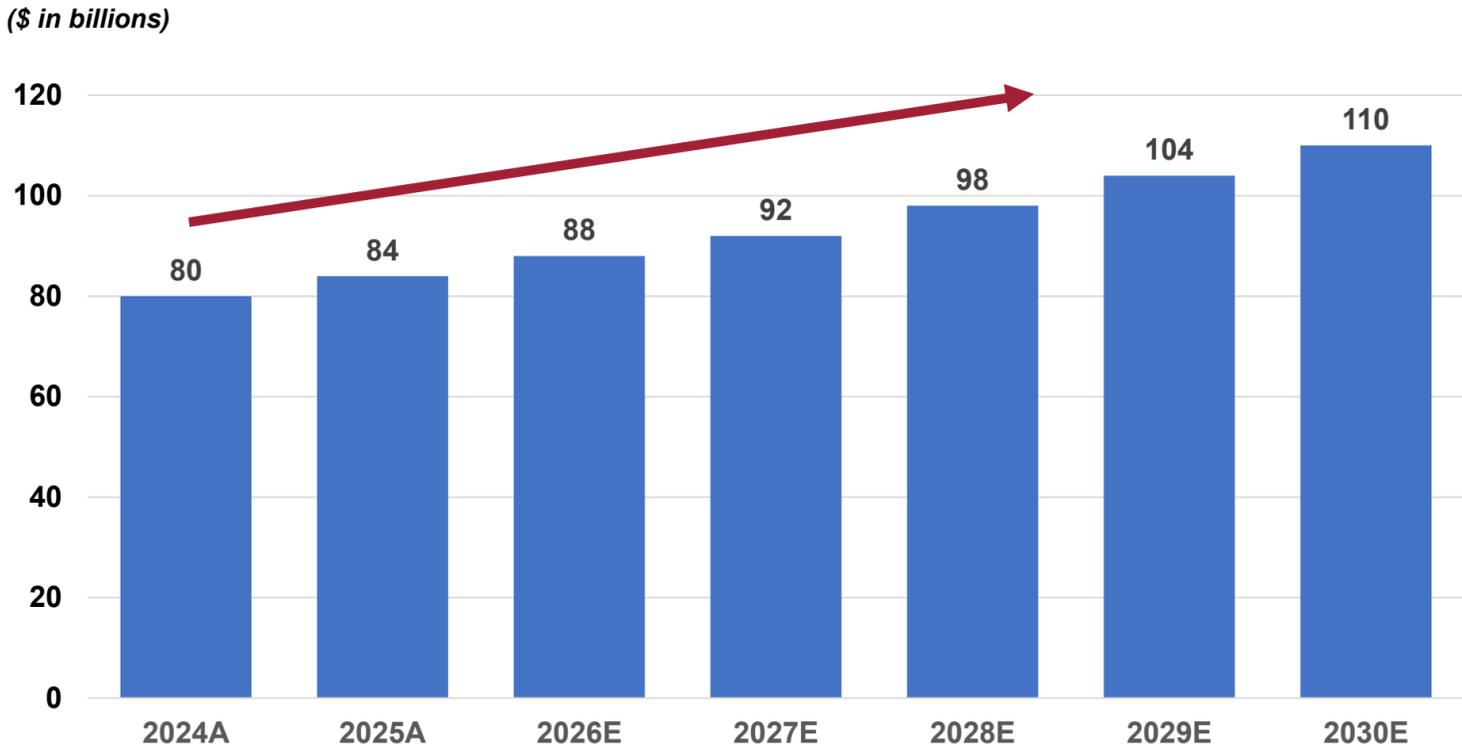

Oil & Gas

- Helix business lines are primarily production-focused and activity-driven by Upstream OpEx budgets
- Current high commodity pricing environment is favorable for offshore spending on both enhancement and decommissioning activities

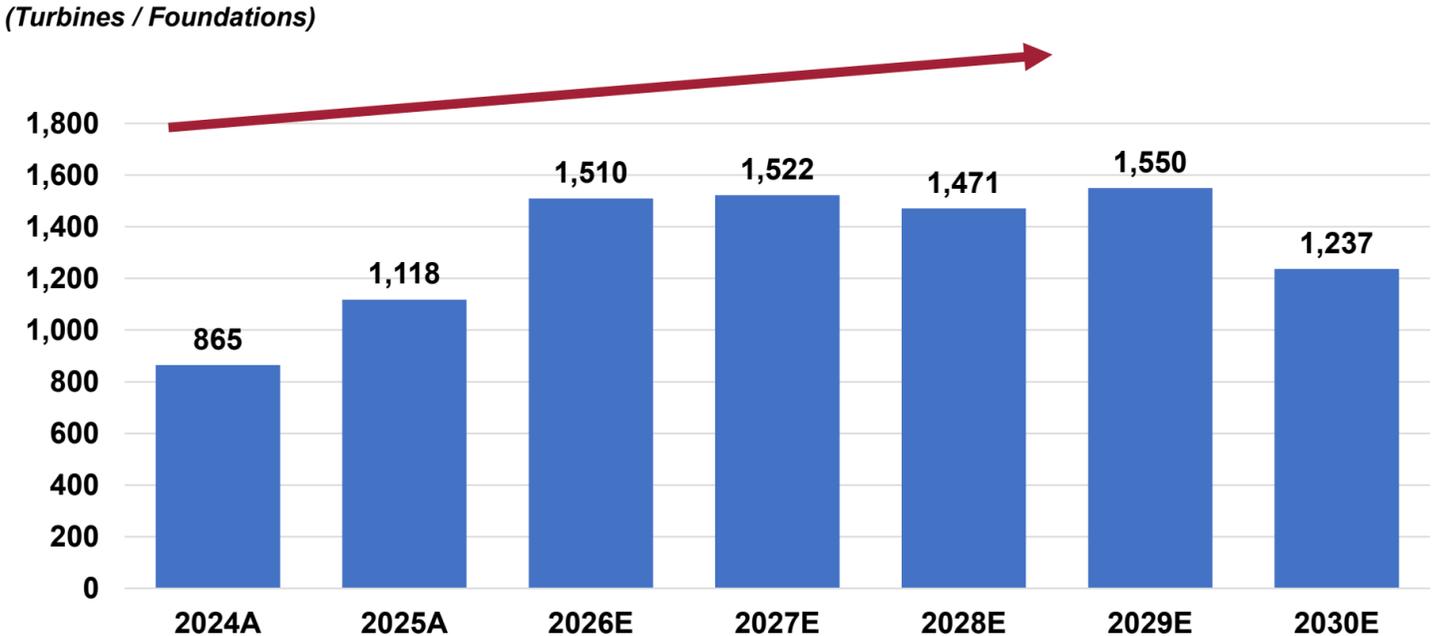

Renewable Energy

- Robotics segment continues to expand into the Renewables market
 - Market-leading position in Europe for trenching services
 - Expanded geographic mix into U.S. and Asia Pacific
 - Expanded services beyond trenching

Global Offshore Deepwater O&G OpEx¹

Global Offshore Wind Additions²
